

The Aegis “Encore Claims System”

Faster, Smarter, More Productive, Affordable, Flexible!

The Aegis “EnCore System”. Has been providing innovative employee benefits systems to a national and international client base since 1980. Since Encore’s inception of the system, they have improved the software making it a more flexible, user-oriented application for Health Care Benefits Administration. We intend to extend the richness of the product line and share the technology with our partners and customers. Excellence in customer service is an attitude that we promote and a reputation that we protect. We listen to our customers; work collectively with them and we deliver.

Our purpose is to provide affordable, high-quality Third Party Administration. We take pride in providing our Customers with affordable solutions crafted to meet their specific challenges –your claims fund will grow and save money from the advanced use of our technology and expertise! Contact us today for a demonstration on any comprehensive series of solutions and see the difference!
